## Summary

Frontend Developer with 6-month internship experience building responsive, API-driven web applications using React.js, JavaScript, and Tailwind CSS. Experienced in component architecture, state-driven UI workflows, and dashboard-style interfaces.

## Technical Skills

**Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Tailwind CSS

**Concepts:** Component Architecture, State Management, Conditional Rendering, CRUD Workflows, Responsive Design

**Tools:** Git, GitHub, Postman

**Programming:** C++

## Experience

### Frontend Developer Intern

Oct 2024 – Mar 2025

Zezpi Tech Pvt Ltd, Nagpur

- Developed reusable React components to standardize dashboard UI.
- Integrated REST APIs to render dynamic data and manage state-driven interfaces.
- Refactored component structure to improve maintainability and UI consistency.
- Collaborated using Git-based workflows for feature updates and bug fixes.

## Projects

### Employee Management Dashboard

Live Demo | GitHub

React.js, Tailwind CSS, JavaScript

- Built a role-based dashboard for admin and employee task workflows.
- Implemented CRUD task lifecycle with dynamic state updates.
- Designed reusable components for scalable dashboard interfaces.
- Created responsive layouts for consistent cross-device experience.

### Spotify Web Interface

Live Demo | GitHub

React.js, React Router, Vite

- Developed a music interface using modular React components.
- Implemented dynamic routing for playlist and album navigation.
- Built responsive UI with scalable component structure.

## Certifications

- C++ Programming Certification – (CHRETD)
- AWS Solutions Architecture Job Simulation – Forage
- Walmart Advanced Software Engineering Job Simulation – Forage
